HOW TO USE

1. Press to check the power level (Blue lights).
2. Press and hold the Button for 1.5 seconds to turn on the LED light. It's in White high mode when first turned on. Press once again to change to Warm light. Press once again to change to Warm and White light.
3. Press buttons to change the Lighting mode. Press for Middle; press for Low; press for Very Low; press for Flashing. Press to go in the opposite direction. Press and hold button to turn OFF.
4. Press the button at any stage to change the colour mode (defaults to High brightness).
5. Open the silicon cover and you will see the USB input and output ports for charging.
6. Press and hold side button to adjust the stand angle - there are four different angles between 0° and 90°.

USB output to charge devices

WARNING

1. Do not stare at the LED light directly.
2. In order to assure the life of the battery and its mechanical parts, please charge it at least once every six months.
3. Do not drop this product onto a hard surface.
4. Do not place in or around direct heat/cold (more than 50°C above or 15°C below 0°C). This will greatly decrease battery life.
5. Do not touch the light if it has been on for a long period of time.
6. Keep out of the reach of children.
