

## Tuatara Front Wall

Model No. KC077-006

### INSTRUCTIONS

1. First, set up your Tuatara 2.5 x 2.5 Awning.
2. Lay out your Tuatara Front Wall beside the Awning. Find the side with the sewn-in rope. It is also the side with the black slide release buckles.
3. Slide the sewn-in rope into the track on the front bar of the Awning. You can do this from both the left and right side.
4. Once the Front Wall is in place, loop the tabs at either side of the Front Wall around the vertical poles of the Awning.

**To pack away, simply reverse the above steps. Do not fold away without removing the wall. Do not pack away damp, dirty or wet. Use a soft brush and water to clean.**
